

Before painting your house

Use a lift and check out these tips!

Dos

- Estimate what size lift you'll need
- Check for slope and choose a lift with leveling capabilities, if needed
- Check that you can easily maneuver the lift with a driving system

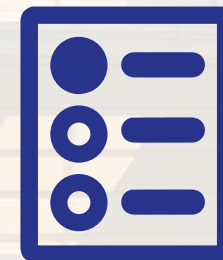

Safety tips

- Use spreader plates
- Always use a safety harness!

Don'ts

- Make sure the lift isn't too heavy – or it might get stuck!
- Avoid painting in direct sunlight

Remember

- First, plan your painting project
- Old house? Consult a professional
- Hot weather? Drink lots of water!

Look after your DINO and your DINO will look after you!
